

About Sonia

Centralized workflows for integrated learning.

Use our comprehensive and flexible software to easily and efficiently manage placement programs in any discipline. Benefit from personalized placements, reliable data management and compliance, and the flexibility to scale across your organization, all in one platform.

Streamline your student placement programs

Best Student Placement and Management Software for Social Work, Education and Healthcare | Sonia

Philippine Consortium for Social Welfare and Human Resource Inc.

"Sonia has been a success for AUT School of Education. The response from our students has been very positive; they are more in control of their placements and like the ease of access for retrieving information ... Overall, Sonia has sped up our placement process and enabled us to work smarter."

Learn More

Sonia's comprehensive and flexible feature set is designed to help at key stages of your student placement program – ensuring seamless transition of student data, records management and efficiency through automation and workflow mapping – all in a single platform.

Disciplines

Sonia for Social Work

Enable easy competency tracking and provide personalized placements for Social Work students.

Sonia for Education

Collect and organize continuous feedback on Teacher Education students out on placement.

Sonia for Health Sciences

Straightforward tracking of skills mastered, practice participation, and clinical hours completed for Health Sciences students.

Who Benefits

Placement Staff, Sites, Leadership, Students, IT

Placement Management

Go paperless with virtual forms, easily adapt the software to different programs, scale needs, and gain efficiencies with streamlined management of your placement program.

Communication

Sonia enables you to communicate with all your stakeholders the way they prefer. Whether it's students interacting through our Sonia app, site managers commenting on potential placements or emailing an entire cohort through an automated workflow – Sonia is designed to work your way, from an easy-to-use portal.

Workflows

Sonia is flexible enough to adapt to your unique program's needs, so staff can focus on personalized placements. Automation of workflows, forms, and reports streamline processes and ensure all critical tasks are completed – giving students the best experience and saving you time.

Reporting

Sonia's integrated reporting tools give you visibility across all aspects of your program's performance. Monitor and report on student activity, legislative requirements and your institution's management needs from one central dashboard.
