WHY NVIVO14?

Discover more from your qualitative and mixed methods data with NVivo 14, the leading qualitative data analysis solution. With NVivo 14, you can ask complex questions of your data to identify themes and draw conclusions, employ advanced data management and visualization tools to uncover richer insights, and produce clearly articulated, defensible findings backed by rigorous evidence – all on one collaborative platform.

WHY NVIVO14 IS THE LEADING SOFTWARE AND AI TOOL FOR QUALITATIVE, MIXED METHOD AND BIG DATA ANALYTICS IN THE WORLD?

Import

Import text, audio, video, emails, images, spreadsheets, online surveys, web content, and social media from various sources into a simple, intuitive interface, plus centralize data from multiple sources to conduct the most in-depth analysis possible.

Organize

Organize your coding structure for flexibility and rigor, segment the people, places, and core metrics of your analysis into cases, and link cases to attribute values such as age and occupation to compare different groups in your data.

Explore

Leverage powerful insight-generating tools to help accelerate insight and achieve the strongest analysis of your data. With NVivo 14, quickly visualize your data with word frequency charts, word clouds, comparison diagrams, and look for emerging topics and sentiments using specific queries to identify themes and draw conclusions.

Connect

Easily connect with direct integration to data from Citavi – our all-in-one knowledge and reference management software, in addition to Microsoft Excel, Word and common free apps like SurveyMonkey and Qualtrics. NVivo 14 works with both macOS and Windows operating systems.

Transcribe

Skip the time-consuming transcription process with automated transcriptions that offer 90% accuracy from quality audio and video formats.

Collaborate

Collaborate in real-time with colleagues as NVivo 14 and NVivo Collaboration Cloud allow teams to work simultaneously on the same project file in a secure cloud environment. Members can also work offline when they need to, and their project will be synched to the common cloud project file when they return online.
