# SIMILARITY AND AI DETECTION

We're putting Academic Integrity Into the Hands of Academics, Where it Belongs. With similarity and AI-generated text prediction tools, you'll have all the information you need to maintain academic integrity to decide whether a submission is properly referenced or falls into the category of plagiarism.

**INSPERA ASSESSMENT**
Author, deliver, grade and feedback

**inspera**

**INSPERA ORIGINALITY**
Check for similarity and AI-generated content

**INSPERA PROCTORING**
AI-assisted live and recorded proctoring

## UNIVERSITY OF CAMBRIDGE

"Using Inspera Assessment hugely simplified our transition to digital assessments. The vast array of features accomodated diverse requirements, and the platform was simple to navigate and implement . Working with Inspera has been a pleasure!"

# HOW DOES INSPERA ORIGINALITY WORK?

Inspera Originality gives you the power to check student submissions in multiple languages against existing source material. This is a whole new level of originality checking.

With our combination of advanced similarity detection algorithms and translation capabilities, you'll get a detailed view of potential similarities to review so you can make an informed decision as to whether a submission has properly referenced sources or contains plagiarized material.

Inspera Originality is available as part of Inspera Assessment. In Q1 2024 it will be available as an integration to your LMS.

# BENEFITS

### Similarity Detection
Check submissions written in more than 30 different languages against the internet and repositories of published work.

### Translation Similarity Detection
Delve deeper by checking submissions for translation similarity using any two languages from our choice of 30.

### AI-Generated Content Prediction
Optionally, you can gain insight as to whether a submission contains English-language AI-generated content.

# WHY CHOOSE INSPERA ORIGINALITY?

### Translation Similarity Detection
Proven to be the only product to effectively detect similarities translated from one language to another.

### Fewer False Positives
Advanced similarity parameters enhance precision and reduce the harm an incorrect allegation inflicts on your institution.

### In-Depth Insights
A clear, comprehensive view of a submission's originality and sources, classifying findings as "Exact matches," "Possible altered text," and "Citation".

### Direct Source Access
All similarity findings link directly to the relevant page of the source.

### Ring Fence Your Submissions
You decide who can access your students' submissions. Keep them within your institution or share them with other institutions.

### Speed and Accuracy
Maintain academic integrity with confidence so potential issues can be reviewed and resolved quickly and efficiently.
